

# Petr Stepanov

Material Scientist. Nuclear Chemist.

✉ [stepanovps@gmail.com](mailto:stepanovps@gmail.com)

☎ 419-496-86-02

🏠 [petrstepanov.com](http://petrstepanov.com)

🎓 [scholar.petrstepanov.com](http://scholar.petrstepanov.com)

## Objective

Highly motivated Ph.D. student with expertise in gamma spectroscopy, positron annihilation spectroscopy, microscopy, and nuclear physics. A strong background in computational techniques, web applications, and desktop software development. More than five years in UI and UX design.

Graduating in April 2019. Seeking to either apply for a position in a National Laboratory. Wishing to become an effective member of a research group as a post-doctorate fellow or find a steady position in the industry.

Authorized to work in the US on [Optional Practical Training \(OPT\)](#) in the following areas: physics, chemistry, and computer science. Will consider [visa sponsorship \(H1B\)](#) offers.

## Education

### Bowling Green State University

Aug 2014 → now

@Bowling Green, OH, USA

Doctor of Philosophy in photochemical sciences.

Dissertation topic: Development of positron annihilation spectroscopy: from experimental setups to advanced processing software.

### British Higher School of Art and Design

Dec 2011 → Feb 2012

@Moscow, Russia

Intensive: graphical design and visual communications.

### National Research Nuclear University

Sep 2004 → Feb 2011

@Moscow, Russia

Bachelor and Master of Science in solid-state physics.

Thesis topic: Radiation defect studies of nuclear power plant vessel steels utilizing positron lifetime annihilation spectroscopy.

## Work experience

### Freelance UI/UX Designer and Frontend Developer

Aug 2014 → now

Working on branding identity guidelines for a number of startups. Designing interactive prototypes and writing agile user stories. Slicing mockups into interactive HTML and responsive CSS. Creating micro-interactions: CSS animations and transitions.

Contributing to the frontend part. Working on gulp build scripts, writing SCSS from scratch. Mostly worked with applications with Node.js, EJS, Mongo.DB and modular JavaScript.

As a part of a team worked on cross-platform mobile applications with Ionic framework.

### Research Assistant, Software Developer

Aug 2014 → now

@Bowling Green State University, OH, USA

Material science research, interaction of ionizing radiation with matter, radiation defects in solids, radiation chemistry. Gamma-spectroscopy. Positron annihilation spectroscopy. Maintaining and tune-up of fast-timing ORTEC and Canberra electronics.

Manufacturing of the radioactive positron sources.

Developing desktop software solutions (C++, ROOT) for acquisition, storing and treatment of raw experimental data and development and verification of theoretical models. Developing websites for research groups and international meetings and conferences.

#### Web Designer, Frontend Developer

Apr 2011 → Aug 2014

@Gridnine Systems, Moscow, Russia

Prototyping conceptual wireframes and visual mockups for web applications (Photoshop, Illustrator).

Developing frontend part of a number of corporate web applications (Google Web Toolkit, JavaScript, Backbone.js and Require.js). Responsive layout with SASS and LESS. Doing some server-side backend programming (Java).

#### Computer Science Teacher

Oct 2009 → May 2011

@Phys-Tech College at Moscow Institute of Physics and Technology (MIPT), Moscow, Russia

Provided instruction and guidance to high school students on following computer courses: advanced C++ programming, markup on the web, Photoshop and 3D Studio Max.

#### Research Scientist

Sep 2008 → Apr 2011

@Institute for Theoretical and Experimental Physics (ITEP), Moscow, Russia

Application of positron lifetime spectroscopy for studying the radioactive-induced defects in steels. Monte-Carlo particle simulations with Fortran 95. Maintaining software for CAMECA tomographic atom probe (MSVC). Application of CERN ROOT libraries for fitting and analysis of experimental spectra.

A complete list of publications is posted on my [Google Scholar page](#).

## Material Research Skills

### Characterization facilities

Positron Lifetime and Doppler Broadening Annihilation Spectroscopy (PALS, DBAR). Atom Probe Tomography (ATP). Scanning Electron Microscopy (SEM). Transmission electron microscopy (TEM). Atomic Force Microscopy (AFM). UV-VIS Spectroscopy. Fourier Transform Infrared Spectroscopy (FTIR).

### Material processing

High-temperature annealing. Wet chemical etching. Electrical Contact Fabrication. Sample polishing.

## Computer Skills

### Software

Scientific packages: Wolfram Mathematica, Maple.

Markup: LaTeX, MS Office Suite, Zotero.

Data plotting: OriginLab, Gnuplot, QtiPlot, SciDaVis, Grapher, Adobe Products.

### Desktop development

Java and Swing, C/C++ and Qt, GNU Automake, CERN ROOT Framework, PHP, Fortran.

### UI/UX design

Figma, Sketch, InVision Studio, Adobe XD, Adobe Photoshop, Adobe Illustrator, Inkscape, Blender.

### Frontend

HTML, CSS (LESS and SASS), Bootstrap, responsive web design, JavaScript and jQuery, npm, gulp, CommonJS, AngularJS, React.js and Backbone.js. Google Web Toolkit. WordPress themes development.

## Scientific projects

During my Ph.D. career I've developed a number of desktop software for data analysis and spectra interpretation. The scientific library of my choice is [CERN ROOT framework](#). It offers numerous packages for histogram manipulation, fitting and plotting as well as data storage and graphical user interface classes.

### TLIST Processor

Software is designed to process two-dimensional energy spectra and output one-dimensional coincidence broadened Doppler spectrum. A background fitting and subtraction technique is developed and implemented. [View on GitHub](#).

### SW Calculator

The program calculates S and W parameters of the 511 keV peak of the annihilation radiation. The software estimates the values of the binding electron energies by fitting the CDB spectrum with contributions from e<sup>+</sup> annihilation on electrons with different wave functions. [View on GitHub](#).

### RooPositron

A flexible terminal-based positron lifetime fitting software. GUI is in progress. The software supports deconvolution of lifetime spectra into the conventional multiexponential model as well as trapping model. Integration of custom fitting models. [View on GitHub](#).

## Conferences

<b>18th International Conference on Positron Annihilation (ICPA-18)</b> @Orlando, FL, USA Oral talk "Positions and Ps in Al <sub>2</sub> O <sub>3</sub> Nanopowders".	Aug 2018
<b>International Workshop on Physics with Positrons (JPos17)</b> @Jefferson Lab, Newport News, VA, USA Poster "A routine of background subtraction from two-dimensional Doppler broadened spectra".	Sept 2017
<b>12th International Workshop on Positron and Positronium Chemistry (PPC12)</b> @Maria Curie-Sklodowska University, Lublin, Poland Poster "Developing new routine for processing two-dimensional coincidence Doppler energy spectra".	Sept 2017
<b>Ohio Photochemical Society Meeting (Oops)</b> @Maumee Bay Lodge & Conference Center, Maumee, OH, USA Poster "Developing new routine for background subtraction in two-dimensional coincidence Doppler broadening spectroscopy".	May 2017
<b>58<sup>th</sup> Electronic Materials Conference (EMC)</b> @University of Delaware, Newark, DE, USA Oral talk "High-Sensitivity Measurements of Defects in ZnO by Means of Digital Coincidence Doppler Broadening of Positron Annihilation Spectroscopy".	Jun 2016
<b>Annual Spring Meeting of the APS Ohio-Region</b> @University of Delaware, Newark, DE, USA Oral talk "Identification of chemical environment of defects in ZnO by means of digital coincidence Doppler broadening of positron annihilation radiation".	Apr 2016
<b>Ohio Inorganic Weekend</b> @Bowling Green State University, OH, USA Poster "Approaching Structural Defect Characterization and their Chemical Identification by Means of Coincidence Doppler Broadening of Annihilation Radiation"	Nov 2015
<b>41<sup>st</sup> Polish Seminar on Positron Annihilation (PSPA-13)</b> @Maria Curie-Sklodowska University, Lublin, Poland Oral talk "Application of positron spectroscopy for detection of nanostructures in alcohol–aqueous mixtures".	Sep 2013

## Scientific associations

American Physical Society (since 2016)  
 The Ohio Academy of Science (since 2016)
